

Relieve

Sustainable Removable Solutions

Be part of the
green furniture
revolution

REDUCE, REUSE, RECYCLE, RELIEVE

The Problem

Why donate your furniture with Relieve?

With no viable sustainable removal solutions on the market, unwanted office furniture largely gets thrown out. Last year alone 10 million tonnes of used furniture were thrown into landfills.

Does this bother you too?

The Impact

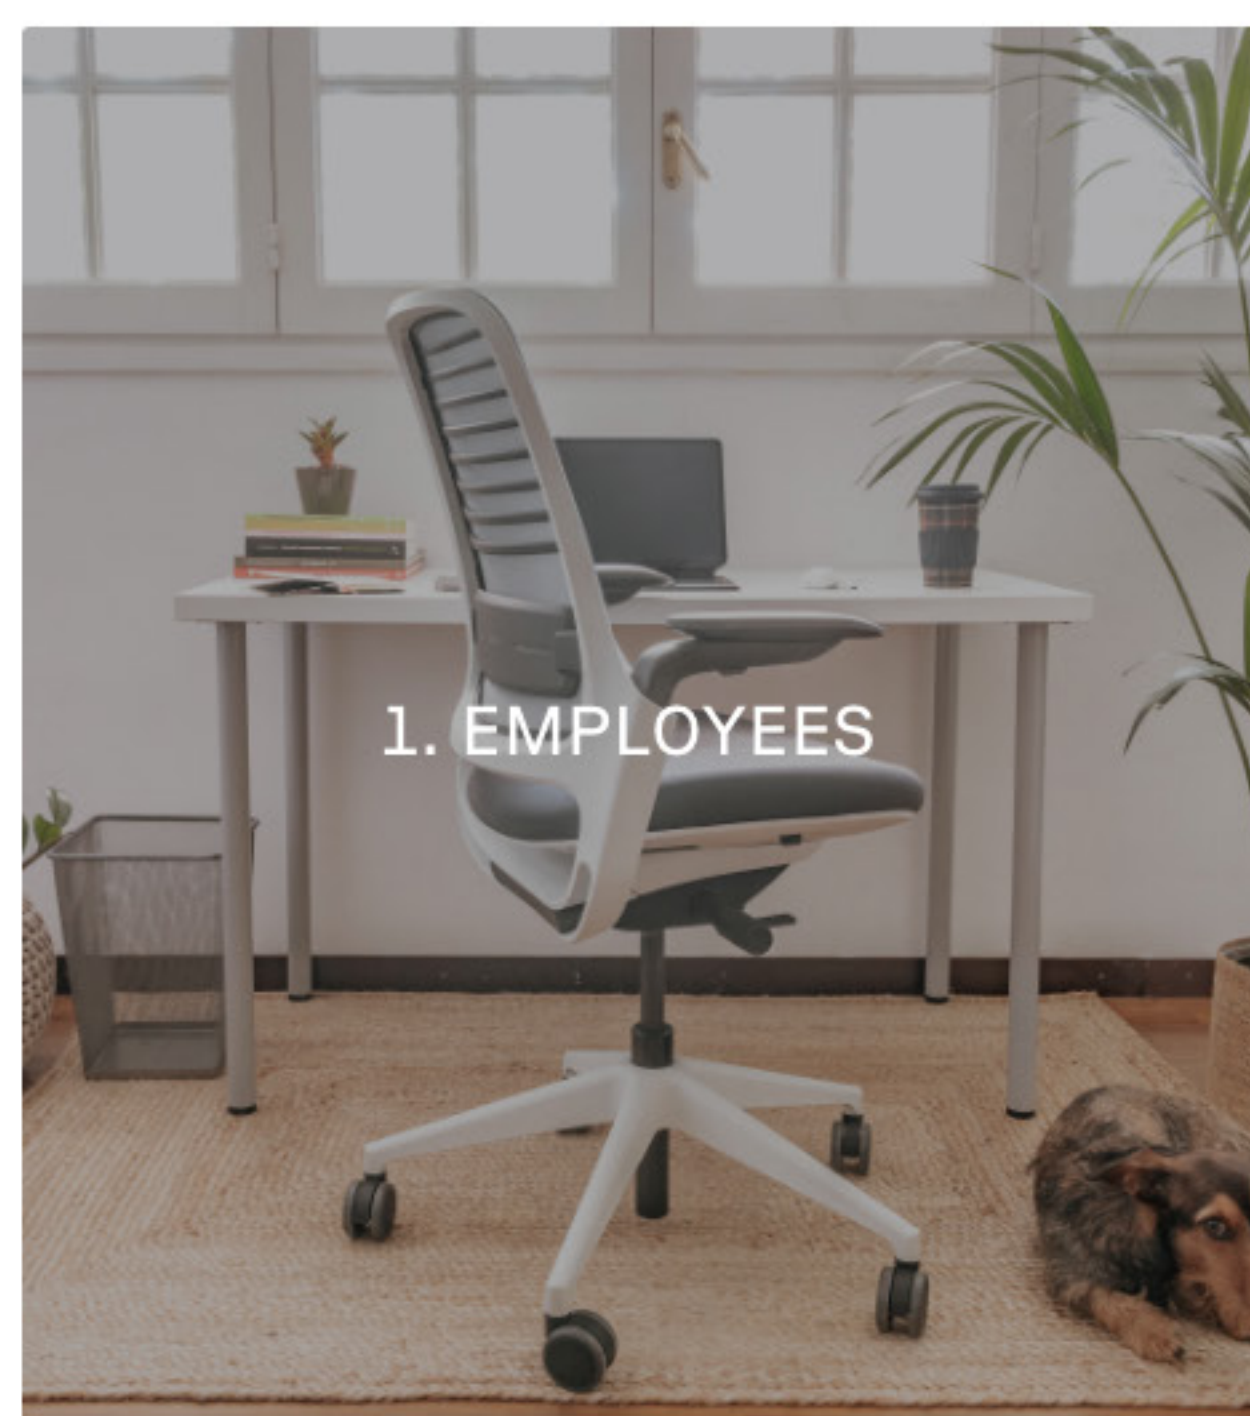

**3.3K - 5.7K
tonnes of CO2**

The manufacturing of new furniture contributes to a tremendous amount of greenhouse gas emissions. The numbers are roughly equivalent to Portugal's annual emissions, or over 500 round the world trips in a plane.

Solidarity

Who benefits from my furniture?

Since the conception of Relieve, we've always prioritized solidarity first. Since our humble beginnings, we amassed a membership of over 5000 NGO's, schools and public institutions. By donating with Relieve, you have the ability to choose who gets access to your items.

How does it work?

1. Inventory

Create an inventory and photograph

We need to know what times you have, how many of each and relative details such as measurements and imagery

2. Campaign

We create your campaign

Once we know what items you wish to donate, we need to know where they are and when people can come to collect. All this information is packaged in a Campaign

3. Online

Prioritise Solidarity

Your items go online

Your items are offered to our over 5000 members, with special access given to Employees, NGO's and schools if you choose.

4. Collection

Beneficiaries come to collect

On a regular basis, we send you updated lists of who is coming to pickup up what items, and when. Beneficiaries can choose a 30 minute slot from the times and dates that you provide us.

How to donate for free!

1. Contact us

Your sustainable donation starts with a brief introductory phone call to us. We will walk you through the process, ask you a few simple questions, and send you the material you need

2. Create your inventory

Referring to the inventory template we send you after our initial call, enter in all the necessary details for each item you wish to donate. Quantities, measurements, short description etc.

3. Photograph your items

Make sure to take appealing and informative photographs for each item. The better the photo the higher the chance your items will find a second home. (We will send you guidelines for how to take appropriate imagery)

4. Send to us!

That's it! Transfer all the data over to us and we will handle the rest for you. At zero cost!

Extra services*
